OF CANADA BONDS

To the par value of \$2,000 00 considered to have been transferred to the sewerworks account were sold during the year at a premium.

We have examined the bonds now held, which are fully registered in the name of the Town. All interest thereon at three per cent was received during the year.

May 1st 1957	\$2,000 00
January 1st 1958	\$2,000 00
June 1st 1960	\$2,000 00

It is noted that substantial operating deficits are provided for both the General and the Waterworks Operating accounts. These deficits are largely accounted for by the nonreversible annual expenditures made by revenue funds, a list of which appears in the accompanying statement. It should also be borne in mind that the proceeds from the sales of land are credited directly to the General account, and that substantial expenditures to the waterworks are included in the transmission and distribution expenses.

ROUND THE COUNTRY

THE HIGH COST OF LIVING. The high cost of living in our country is a problem that has been discussed for many years. It is a problem that has been discussed for many years.

As I said before, we cannot migrate to a new country but we have, in light of this, to find a way to live in our own country.

There is a great difference between the old and the new. The old was a time when the farmer was the only one who produced food.

YOUR GIFT to the Canadian Red Cross enables you to bring help, comfort - life itself - to the needy and the stricken.

When disaster strikes, you are there with food, clothing and medical help. In isolated districts where the doctor is beyond reach, you establish Outpost Hospitals. You provide free blood transfusions set up additional blood donor clinics. You reach first aid, swimming and water safety. You operate Red Cross Lodges at Military Hospitals, so that wounded veterans have a place for recreation and for receiving their relatives and friends.

You become a partner in all the missions of mercy carried on, in peace as well as war, by Canada's shield, devoted Red Cross workers.

LIVING HAPPILY

The business of living happily

is a) something with moderation—

moderation in our attitudes, moderation in our spending,

moderation in our cars and even one of our personal habits.

For, The House of Nazareth has so frequently pointed out,

along the path of moderation lies peace of mind,

the respect of our neighbours,

the confidence of our business associates,

security and happiness.

to various disappointments. At events it is a matter which I suppose would wait pay thousands to travel and get thoroughly themselves, for apparently assume that stable prices given by the State Board of Commerce are not sufficient, all subsequent in prices are a new source of evidence that the buying and selling of speculators has much, if any, effect on the price of grain. The evidence is quite clear, however, that prices are made by the worldwide supply and demand of the worldwide demand for grain which can scarcely be affected by the actions of individuals.

1. [Introduction](#)

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were grown in the YEA medium for 24 h at 28°C. The cell concentration of the strains was adjusted to 10⁸ cells/ml. The cell suspension was mixed with the plant tissue and the transformation efficiency was determined. The results were expressed as the mean ± SD of three independent experiments. The asterisks indicate the significant difference between the strains.

Seeding Grain Crops For Good Forage

When starting the method of seeding grain crops into mixed pastures, one must use a good seed, and large, light seeds are best. The seed should be sown in the fall, and the grain should be sown in the spring. The seed should be sown in the fall, and the grain should be sown in the spring. Don Graham
It's only human to hope for

much anticipation can be a hindrance to success and happiness. Carried to extremes, it can even produce a feeling of frustration.

For one thing, "Living in the future" blinds us to the many enjoyable things in life that each day brings. Too easily we overlook the deep and real satisfactions to be found in a lovely day, a good friend,

However, *I do believe one should always be hopeful—and wherever possible take practical steps to make any reasonable dream or ambition come true.*

The most practical way to provide for your own and your family's future is through life insurance. It offers a safeguard against unforeseen emergencies, and helps make your dreams of comfortable retirement and other plans to come true.

Farmer future

It's ambitious, that boy. Father. Hires out to neighbors some livestock of his money.

One World Or War Our Choice

Weekend. It is only through the efforts of a group of world citizens that we are prevented at this time from the realization of the United Nations of International Law at the University of Chicago. It will come out of the efforts of the United Nations of International Law at the University of Chicago.

To The Electors Of Settler Constituency

I wish to thank all the people for their support on Thursday, August 17, and also for their support during the four years preceding that date. The people of the Settler Constituency have been very fair to me. I am now prepared to give all the people in this Constituency, regardless of their political affiliations, the best service I can for the next four or five years.

W. S. MACKIE, M.L.A.

Farmers Warned of Buying Rhinitis Pigs

Dr. E. K. Ballentine, Director of the Veterinary Research Institute, University of Alberta, has issued a warning to farmers not to buy pigs from sources where they are not known to be free of rhinitis. He says that the disease is a serious one and can be spread by contact with infected pigs. He also says that the disease can be spread by contact with infected manure. He advises farmers to buy pigs from reputable sources and to have them tested for rhinitis before buying them.

Turkey Quality Pays

Officers of the Poultry Research Institute, University of Alberta, have issued a warning to farmers not to buy turkeys from sources where they are not known to be free of disease. They say that the disease is a serious one and can be spread by contact with infected turkeys. They also say that the disease can be spread by contact with infected manure. Suburbanites And Irrigation

The success of an irrigation system depends largely on the ability of the district to provide water to the crops. In some cases, the water is provided by a canal, while in other cases it is provided by a well. The success of the system depends on the ability of the district to provide water to the crops.

The Federal Government

The federal government has announced a survey of the agricultural sector. The survey is being conducted by the Department of Agriculture and will provide information on the needs of farmers. The results of the survey will be used to develop policies and programs to support the agricultural sector.

The report of the federal investigation

The report of the federal investigation into the activities of the Communist Party in Canada has been released. The report states that the party has been active in Canada since 1945 and has been involved in a variety of activities, including propaganda and recruitment. The report also states that the party has been successful in recruiting a large number of members.

LIKE SLEEPING THREE IN A BED

The domestic situation in Delaney is something like sleeping three in a bed—when one moves they all move.

At present, according to the story, Tommy Watson is waiting for the pleasure to finish his new house. When he vacates his present house, the Delaney family will move into the new house. The Delaney family will move into the new house. The Delaney family will move into the new house.

RETURN FROM U.S.A.

Mr. and Mrs. R. H. Church have returned from a tour of the United States. They have been in the United States for several months.

SHARE

with the people of Britain the things which YOU have in abundance.

They are fighting—on short rations—a cold war against the spectre which haunts the world today. They URGENTLY need YOUR help to give them strength.

You can help them through the Emergency Fund for Britain—an all-Canadian organization formed for year-round operation.

YOUR donation will be used to buy food in Canada. Food will be shipped in bulk, FREIGHT FREE, packaged in England, and distributed there, under supervision of the U.E.F.B.'s British Advisory Council, to those most in need. This will SAVE EXPENSE, and make YOUR dollars go farther.

Send your cash contribution NOW to the local or provincial headquarters of United Emergency Fund for Britain. Plan to make your REGULAR donations in 1949.

GIVE BRITAIN STRENGTH!

C. F. Pak Gives Interesting Address At Coronation

Addressed at the Coronation of King George VI and Queen Elizabeth at Ottawa, C. F. Pak, president of the Canadian National Travel Service, gave an interesting address to the guests. He spoke of the recent meeting of the Travel Association held at the Hotel Astor in New York City, and of the valuable information received from the tour of the United States and Canada. He also spoke of the importance of the travel industry in the world, and of the need for a better understanding of the world and its people. He concluded his address with a prayer for the success of the coronation and for the peace and prosperity of the world.

Seen In The Alberta Wreath

Seen in the Alberta Wreath, a group of people were seen at the coronation. They were seen in the wreath, which was made of the leaves of the Alberta tree. The wreath was made of the leaves of the Alberta tree, which is the symbol of the province of Alberta. The wreath was made of the leaves of the Alberta tree, which is the symbol of the province of Alberta. The wreath was made of the leaves of the Alberta tree, which is the symbol of the province of Alberta.

CAR ACCIDENT NEAR ALMA

WAGON—An automobile was involved in a serious accident near Alma, Alberta. The accident occurred on the highway between Regina and Saskatoon. The car was travelling at a high speed when it lost control and rolled over. The driver was seriously injured and the car was completely destroyed. The cause of the accident is still under investigation.

The Other Christmas

Christmas—a time of candle-light flickering on happy faces, a time of carols and good cheer, of brightly-wrapped gifts and tinsel trees.

And deep within it all is still another Christmas, the Christmas guiding our every day—a Christmas, born for us of a tolerance and understanding that goes beyond words.

born for us so that men may live in harmony, with purpose to their lives and benevolence in their hearts . . . This is the other Christmas, the spiritual Christmas.

THE HOUSE OF SEAGRAM

WEDDING

Millard United Church was the scene of a quiet wedding at 2:30 p.m. December 21 when Rev. Albert W. Thompson, officiating, united in marriage Mr. and Mrs. G. M. Thompson. The bride, Miss G. M. Thompson, daughter of Mr. and Mrs. G. M. Thompson, was given away by her father. The groom, Mr. G. M. Thompson, son of Mr. and Mrs. G. M. Thompson, was given away by his mother. The ceremony was simple and beautiful. The bride wore a white gown and the groom wore a dark suit. The reception was held at the home of the bride's parents. The wedding party consisted of the bride, groom, best man, maid of honor, bridesmaids, and flower girls. The wedding cake was served by the bridesmaids. The wedding music was played by the church organ.

Mr. Hollingshead points out that "An educator in the U.S. made a careful check of the records of the children of modern schools as was given in children the same age. The result showed that 'modern' pupils made better marks in school than those of the 'old' type. This is a fact which is generally known to the public."

Now, Mr. Hollingshead says, a general statement of this kind is a statement of the half-truth. It is a statement of the half-truth. It is a statement of the half-truth. It is a statement of the half-truth. It is a statement of the half-truth.

What's happening out in Alberta today? Plenty! New oil is being sought and found. Money's flowing in. There's a lot of activity, lots of opportunity. And a result all Canadians are better off.
For instance, all from Alberta's new wells is expected to save 60 million U.S. dollars this year! That's one of the reasons for Canada's better trade position, one of the reasons we are able to buy more U.S. goods.
The new discoveries have meant lower cost operations in Alberta and Saskatchewan for farmers and industrialists, and this most ultimately benefit all of Canada.
Then, too, it takes a lot of money to find oil and lots more to develop a field once it is found. Two million dollars a week is being poured into oil exploration and development in Alberta today. That spending creates new markets for the things the rest of Canada has to sell.
And finally it's a result in the new year that we are dependent on foreign oil for roughly 90 per cent of our supply. The new private production should reduce our demand. With continued effort and expanded acreage it is not too much to hope the new search for oil will make Canada self-sufficient in petroleum in years to come.
Everywhere in Alberta you hear about new oil discoveries—all the more because they followed the long years when nature hid the oil away. Years when men drilled holes two miles deep and found only water. Years of drilling and disappointment.
In 1947 the tide turned. It was the Leduc field... then the Woodbush field... then Redwater... now, stimulated by time, other discoveries have new promise and the hope of still greater benefits for all Canadians.

How The Farmer Talked Back
The list of wisdom was written by Mr. Gilbert McMillan, who is president of the Dairy Farmers of Canada, and appeared in a farm publication.
The poetical power of the rural community of industrial Canada is due to its importance in the marketing power of various products of the products of the farm. If we are to maintain a reasonable degree of prosperity the balance must be kept at a fair level.
Much as reduction in the price of foodstuffs are to be desired, and though it is natural to welcome such news, the possibility that the reduction in the price of foodstuffs will mean the reduction in the price of the products of the farm is a possibility that should be kept in mind.
Mr. J. L. Ballantyne, president of the Ontario Cattle Raisers' Association, has written an article in the Ontario Farmer which is well worth reading. It is a warning to the farmer to be on his guard against the possibility of a reduction in the price of foodstuffs.

The International Wheat Agreement

The International Wheat Agreement, which was signed in London last week, is a landmark agreement in the history of international trade. It provides for the establishment of a permanent international wheat market, which will help to stabilize prices and ensure a steady supply of wheat to all countries.

What Does Your Farm Need?

What does your farm need? This is a question that every farmer should ask himself. The answer depends on many factors, including the size of the farm, the type of crops or livestock raised, and the local market conditions. However, there are some basic needs that every farm should have, such as a good water supply, a reliable source of fertilizer, and a good system of pest control.

Soviet Capital Likened To Potemkin Village

Henry Menck, in New York Times, has written an article in which he likens the Soviet Union to a Potemkin Village. He says that the Soviet Union is a place where everything is as it appears to be, but in reality, it is a very different place. Mr. Ickes is entirely correct in saying that it was Hitler who kept him out. As long as Hitler believed that his air attacks would force England to capitulate, he was not interested in helping France to get out of the war, or in promising him a slice of French Morocco.

When it became apparent that Hitler had miscalculated, Franco sent General Franco to Berlin to offer his sword again to the Fuhrer on September 17, 1940. Franco's brother-in-law, at that time, the actual head of the

BANK OF AMERICA

Suppose you have what you feel is a good opportunity which calls for bank credit. If one bank cannot see it your way, or if you think you can get a better deal elsewhere, you're free to "shop around".

Banks compete to serve the most diversified needs, no matter how specialized any of them may be... personal, business, or farm loans, money transfers, collections... to name just a few.

More than 95 out of 100 bank applications are decided "right in the field"—in the branches—by bank managers who take a personal interest in serving their customers' individual requirements.

Oil Industry Enthusiastic About Stettler Strike

The Alberta oil industry and the Stettler strike are in fact the whole North American oil industry—increasingly so.

Impressed with the fact that the strike is the first that entirely ends oil production in the Canadian Gulf Oil Company's territory, the industry is enthusiastic about the strike.

The full suspension of the strike was declared at the annual shareholders' meeting of the parent Gulf Oil Company at Pittsburgh, Pa., on June 1st.

Ever Wonder How Our Towns Are Named?
There is a story behind the name of every town in Canada. Some are named after a person, some after a place, some after a thing. The name of a town is often a reflection of its history and the people who lived there.

How Week Wins Over
The week is a time when we can relax and enjoy the fruits of our labor. It is a time when we can spend time with our families and friends, and when we can do some of the things we have been putting off.

THE FUTURE OF AGRICULTURE IN ALBERTA
The only people who ever make a success of farming in Western Canada, says Mr. Gardner, the Federal Minister of Agriculture, are those who know that for every four or five good years, you are going to have four or five poor years, that is years of low production.

Pot Chapman Aids Aliz in Baseball Tournament

A very successful ball team was held at Aliz, Alberta, last night. The team, known as the "Pot Chapman" team, was composed of players from the local area. The team was led by Pot Chapman, who was the manager. The team played a game against the "Aliz" team, and won by a score of 4 to 2. The game was a very close one, and the Pot Chapman team was very lucky to win. The game was played at the Aliz baseball field, and was attended by a large number of spectators. The Pot Chapman team is very proud of their victory, and they are looking forward to playing more games in the future.

Dust Said Dangerous

One observer of local conditions pointed out recently that the dust which is so prevalent in the community is a very dangerous thing. The dust is a very dangerous thing, and it is a very dangerous thing. The dust is a very dangerous thing, and it is a very dangerous thing. The dust is a very dangerous thing, and it is a very dangerous thing.

Hunters May Shoot Grain Raiding Ducks

Conservationists are pulling no punches in their efforts to protect the grain fields of the province from the depredations of the Canada goose. The birds are reported to be causing considerable damage to the grain crops in the Stettler area. The conservationists are urging the government to allow hunters to shoot the birds when they are found raiding the grain fields.

The "Pony" that replaces a Team

WITH the introduction of the "Pony" tractor, Massey-Harris entered the world of power farming in a way that has never been equaled before. There are thousands of farmers and market gardeners whose acreage does not justify the investment in large-scale tractor equipment. Such men were barred from the use of power machinery until the "Pony" came into the picture. Today, it is helping them to increase their farm output, reduce production costs, and eliminate the drudgery of hand labor.

The "Pony" is an outstanding example of the finest engineering that has entered every Massey-Harris machine. In designing the "Pony," Massey-Harris engineers were not content merely to build a small-scale tractor. They studied the kind of work

Mrs. Broomer has been a regular of Broomer since the spring of 1927 and always has taken a great interest in the work of the Club. The evening was in the nature of various kinds of entertainment, and was thoroughly enjoyed by all. The presentation of a handsome program of money by Mrs. Jamerson on behalf of the Club then took place with a short address on the appreciation of the work of the Club by Mrs. Jamerson and Mrs. Broomer.

There are regular services at the Church now on the 1st day in the month at 3 p.m. Evenings at 7.30 p.m. on the Sunday in each month until further notice.

Mrs. Philip Walker entertains the ladies on the committee of the Community Club at her home on the afternoon of October 7th. Final arrangements were made for the Children's

Germination Tests

Important This Year

For general tests of early maturing varieties, the seed should be sown in the open before the germination of the late maturing varieties.

The cereal crops, says A. M. Field, Field Crops Commissioner, Alberta Department of Agriculture, Mr. Wilson points out that sowing in the open is the best method of selection. He urges farmers to sow early varieties by having samples tested for germination.

Some vegetables require special treatment.

Celery is best stored in a box or barrel, covered with four to six inches of sand with a layer of straw or hay on top. The sand should be moistened with a considerable amount of earth retained in the boxes.

The sand should be packed tightly about the roots of the plant and kept well watered. The tops of the celery should be kept dry. Celery should be kept for two or three months, y-trimming and cutting with damp newspapers covering at a low temperature.

Onions require a dry atmosphere and a low temperature and where these requirements cannot be found in a basement they may be found in a warehouse.

Most important with onions is to have a well-ventilated producer of the stored product for at least three weeks outside storage before being moved to indoor storage.

tion of the Alberta swine Association is to be held at the Macdonald Hotel, Edmonton on February 13th, 14th and 15th. Dr. H. H. McCallum, Secretary of the Association, advises that the speaker will be Dr. A. G. Head of the Department of Dairies and Dairy Husbandry, Washington State College. Mouthful Drinks

Active youngsters often need nourishment as well as a drink to quench thirst at mid-morning or mid-afternoon. What could be better for them than a cold milkshake or egg nog? Both food value and flavor vary widely to be given by the addition of fruit or fruit juices. Miss B. J. Lewis, Nutrition Specialist, Alberta Department of Agriculture gives the following suggestions for making nourishing drinks:

will not curdle. Make an orange juice souse the same as any egg souse using half orange juice and half milk. Use 1 tablespoon of sugar or more for each cup of juice — depending on how sour the juice is.

Lemon juice or grapefruit juice can be used in the same way. Almost any left over canned fruit juice can be added to milk — of course, select one "make a drink that appears more appetizing."

Do your Christmas Shopping in our HOMETOWN

Mother and Dad holding sweet conference... Junior being very well behaved... Christmas is just five weeks away!

This Christmas will be one of the biggest and happiest ever. And to make it extra merry, stores have stacked their shelves to the rafters... filled their showrooms 'til they're fairly bulging with naturally home-made gifts that you're always wanted.

Now the only question is, how to take the holiday push... the longest and shortest campaign, out of your annual Yuletide shopping tour. We've a suggestion.

Shop at home, where you will be served by friends, and your neighbors... where you will be served best, because your neighbors know you! Shop at home because you save time and money—and still can obtain anything and everything that's available anywhere else. Shop at home because you are supporting the merchants who are supporting YOU... through their interest in better schools... better churches... better public service.

We're rich in the knowledge that this Christmas, by shopping right here in Hometown, we've contributed to a better Holiday Season for ourselves—and a better community for all!

Water Lubrication

C. A. Chabert, Editor,
Agricultural Engineers, Alberta
Department of Agriculture, re-
sponds to the following ques-
tion of engine lubrication in
water at all right to them to
use very low temperatures at the
time the oil must have not
frozen, even at the high
temperatures found in a warm
region, to prevent it "burning
down" if the oil is too heavy it
will not be forced through the
valves during the water opera-
tion, and the engine, except for
lubrication, will wear away.
If the oil has not sufficiently
thinned at the higher temperature
the oil will not seal the bearing
surfaces apart, and again rapid
wear will result.

Another problem of water
lubrication is that of the water
itself. This results from the
fact that water is a poor lubri-
cator, and is generally covered
by a thin film of oil. This film
is the only one that will seal
the bearing surfaces apart, and
it is this film that is broken
by the water, and the bearing
surfaces are again rapidly
worn away.

Midnight Blaze Destroys Wetsakwin Hardware

The most disastrous fire in many years struck Wetsakwin Hardware, January 23, when the building, a two-story structure, was completely gutted and the building razed to the ground. The fire was caused by a gas leak in the main west corner of the building. The fire was caused by a gas leak in the main west corner of the building.

Former Stettler Doctor Alive or Dead?

Dr. Charles Moore, Red Deer medical officer of health, has no need to plead himself to know he's alive. But he is faced with the problem of convincing his London War Office of the same fact—and that he is not the medical officer who died of wounds back in September 18,

In fact he did treat the whose pension application brought about the acceptance.

"I'm just on my way to the bank"

He is just one of the hundreds who during the day will drop into the branch bank around the corner.

Savings depositors with their pay cheques . . . retail merchants with the day's cash . . . people commending the manager about loans . . . others cashing cheques . . . it is all part of the daily work of the branch bank.

In ten years the number of accounts maintained by bank depositors has grown from 5,000,000 to 8,000,000.

This shows how Canadians have come to count on their local banks for a great variety of services. The banks keep pace with the growing needs of the nation.

In potato growing, the importance of high quality disease-free seed cannot be over stressed says W. Lohay, Supervisor of the Seed Potato Section, Department of Agriculture. You can't expect a profitable crop if you plant diseased potatoes.

It is well known that crops which quality potatoes can be grown is certified seed and such seed must pass a very strict field inspection before it is certified. The amount of certified seed is known and the amount is thus assured of dependable stocks if other good seed is not available.

Following the grower can expect

World of Wheat

By H. G. L. Strang

Since the beginning of culture in the West crops had to face severe hazards.

Very first wheat crop in the Seaboard bottoms in 1810 was destroyed by a locust plague.

Passenger Pigeons, in 1830, destroyed wheat crops in Indiana. The crop of 1817 in Indiana was destroyed by a cloud of locusts.

Locusts were the worst of the hoppers which in the worst

campaign was initiated last year by the Veterinary Services Branch of the Alberta Department of Agriculture with a view to eventual eradication of the disease from poultry and livestock. Avian tuberculosis occurs in hogs and poultry does spread to humans and is therefore a human health problem. It does however, cost the producer hard earned dollars and cents. Every farmer should be familiar with the methods of preventing the introduction and spread of tuberculosis in livestock.

Officials of the Veterinary Services Branch are kept informed of any indications of tuberculosis in hogs killed as abattoirs of the province.

the owner is advised by letter the steps to be taken toward eradication of the disease in hand. Dr. E. E. Ballantyne, Director of Veterinary Services, advises that co-operation has been good and that many letters of appreciation have been received.

In addition to letters to owners, attractive posters displayed in egg and poultry raising areas and bulletins with bulletins on avian tuberculosis attached. Since house birds are susceptible to the germ of TB poultry and should never be allowed to range.

Full information on problems and control of tuberculosis in swine and poultry can be obtained by writing to the Division of Animal Industry, U.S. Department of Agriculture, Washington, D.C.

Swine Care Pays: Chilling of young pigs (right) and the reduced treatment are often very expensive. A. J. Charnicki, stock supervisor, Alberta Department of Agriculture recently, a loss of 80 was paid by one Alberta farmer there, to these factors. This an isolated case, says Charnicki. Loss of young pigs these two sources is much more often than is

Hog producers should take the attitude that a slip **how could not happen to us** so that they can afford occasional neglect of these precautions. All new-born pigs should receive their treatment of red iron on the 2nd, 10th and days following birth. The

Avoid chilling of newborn pigs. With the changing weather of this time of year, cautionary measures are important. Where artificial heat is used, maintain it at uniform temperatures day and night. Temperature should be maintained within the 50 to 80 deg. Fahrenheit range. A little extra care at this time will result in the saving of many new-born

Use Them Together
Gardeners are again tempted by the new and varieties of vegetables and ers appearing in the seed ology, but it takes both kedge and skill to make garden bloom like those trated P. D. McCalla, Sver of Horticulture, sug that one important point ing through the catalogue s who advise you to use

A handy companion to the new catalogue is the Department of Agriculture's circular, "Recommended Horticultural Varieties and Zones Map for Alberta." Gardeners can be confident as to the suitability of a variety for their climate before ordering their supplies. We all like to try something new of course, and sometimes a chance that it will survive. The occasional novelty seed and is always the one for general use it's good to stay with the recommended varieties.

Copies of the circular, "Recommended Horticultural Varieties and Zones Map for Alberta" can be obtained free of charge from district agricultural agents from the Field Crops Branch, Alberta Department of Agriculture, Edmonton.

Hope for the

To The Infantry Army, no human being is ever beyond hope. However maimed or covered by sin or circumstance, however dominating our seemingly hopeless, no individual, young or old, appeals to us as The Army's understanding heart and human touch. To provide the support for in endless toll of human beings. The Infantry Army relies upon YOUR decision. Again The Army appeals to you—with confidence.
